

Pre-BootCamp Workshop September 16th
BootCamp October 6-8, 2010

UF Entrepreneurial BootCamp

Intensive Entrepreneurial Training for Technology Entrepreneurs

The University of Florida is recognized along with MIT and CalTech as a leader in creating technology-based startup companies from university research.

For those interested in creating a startup company this first ever Entrepreneurial BootCamp is a must for you. This unique opportunity will enable you to:

- Put your technological idea through the paces and develop CEO skills
- Network with successful tech entrepreneurs
- Develop a quality presentation to share with potential investors and strategic partners

PRE-BOOTCAMP WORKSHOP: 9/16/10

- Instructors will provide tools and methodologies to conduct feasibility analysis for your opportunity

BOOTCAMP: 10/6-8/10

- Interactive classes covering all aspects of creating a technology-based startup company
- Input from successful tech entrepreneur teachers/mentors
- BootCamp culminates with competitive presentations in front of a panel of technology entrepreneurs and investors with networking reception to follow
